FEATURES

Adaptive Bass Linearisation (ABL)

Continuously adapts the bass response to the input signal, resulting in a significantly improved bass performance, without the risk of damaging the driver.

Room adaptation

A three-position switch controls the bass response of the speaker depending on the placement of the speaker in the room.

Thermal protection

The temperature of all driver units is constantly monitored to keep the speaker at top performance all the time.

Line sense

Auto on/off - for connecting non-Bang & Olufsen equipment.

Connections

- 2 x Power Link (RJ45)
- 1 x RCA (L/R)
- 1 x TOSLINK
 - in: Sample rate 32k, 44.1k, 48k, 96k/PCM16-24 bit
